DYSENTERY, CHOLERA, FEVER, AGUE, COUGHS, COLDS, &c.

DR J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE,
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne, that they prescribe it largely, and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

Dr J Collis Browne's Chlorodyne,

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Whooping Cough, Hysteria, &c

EXTRACTS FROM MEDICAL OPINIONS

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet, Dec 31, 1864

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed."

Dr Lowe, Medical Missionary in India, reports [Dec. 1865] that in nearly every case of Cholera in which Dr J Collis Browne's Chlorodyne was administered, the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox medical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Parmaceutical Journal, Aug 1, 1869, which states that Dr J Collis Browne was the inventor of Chlorodyne that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Such Diseases are caused by VITIATED BLOOD which is generally produced by derangement of the digestive organs.

Cleanse the vitiated Blood, whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood healthy and all will be well.

Ayer's
Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,
PRACTICAL AND ANALYTICAL CHEMISTS,
LOWELL, MASS.
PRICE $1.00.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral.* So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure.

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

DR. CHING FUN—A CARD—EDITOR BRITISH COLONIST:—Through the medium of your paper I want to state the very great good that has been done me by Dr Ching Fun of this city, next door to Kwong, Lee & Co For 24 years I suffered with neuralgia on the brain, which baffled the skill of three firstclass American physicians Latterly bronchitis attacked my right lung, and my eyes became awfully inflamed. Despairing of ever being cured I placed myself as a last resort in the hands of Dr Ching Fun, and after five months' treatment I am a well man and feel that I cannot sound the eminent Chinese gentleman's praises too loudly, so that all my countrymen similarly affected may visit him and find relief Respectfully,

THE BRITISH COLONIST.

Friday Morning, June 3, 1870.

The General Orders.

Recurring to what we may be permitted to designate as the 'General Orders' just issued for the government of Common Schools, we propose pointing out one or two additional and, perhaps, more practical objections. One cannot very well help being struck with the similarity existing between the attitude of the Inspector General towards the School Teachers of this colony, and that of the taskmasters set over the Hebrew bondmen by Pharaoh, King of Egypt. It will be recollected that when the Hebrews complained of the severity of their treatment, that merciless monarch commanded the taskmasters, saying, 'Ye shall no more give the people straw to make brick, as heretofore: let them go and gather straw for themselves. And the tale of bricks which they did make heretofore ye shall lay upon them; ye shall not diminish aught thereof. Let there more work be laid upon the men, that they may labor therein; and let them not regard vain words.' As a striking counterpart to the treatment thus meted out to the Children of Israel, we find the Government of this colony, instead of ameliorating the certainly very hard lot of the Common School Teachers, 'laying more work upon them,' and leaving them to 'gather straw for themselves.' Under the new regulations the school-hours are lengthened out by half an hour, and in addition to that, the Teachers are liable to be called upon to put in and extra hour or two during four days every week, while religious instruction is being imparted to the pupils. Here we have, say, ten additional hours' work a week, equal to two extra days, imposed upon the Teachers. And yet they must 'gather straw for themselves'! It is known that the Government refuses to give more than $480 this year towards Common School Education in this District, although the Act provides for twice that sum being given. This $480, let it be remarked, has to be divided between two School Teachers; and when it is stated that during the past fourteen months all that these Teachers have received for their services, over and above the miserable pittance from the Government, is only *fifty dollars apiece*, the reader will see that the comparison we have instituted is no great exaggeration. Is this a condition of things under which the Government is entitled to impose additional duties? 'Beggars cannot be choosers.' The colony certainly is not in a position to meet the Common School Teachers with fresh exactions. The School Act has been amended. It was doubtless desirable that an efficient Inspector of Schools should be appointed. Without that the Educational ship—a wretched craft at best, and miserably appointed withal—was at sea without a commander. But was that the only defect which called for remedy? Did not the most felt and prominent defect of the system consist in this, that it did not make effective provision for the financial support of Education? The Teachers were starving; schools had to be closed because ample and effective means for providing the necessary revenue for Educational purposes did not exist. But we do not find the slightest effort being made, or the faintest concern manifested for the amelioration of the truly wretched condition of those upon whom must chiefly depend the success of the best school system. On the contrary, we find an additional demand made upon their already unrequited labors, and a 'General' appointed to lord it over empty stomachs! Turning to smaller details, the vacations come too near each other, and the summer vacation comes too late in the season. In the towns, at any rate, the summer vacation should be in July, the hottest month, when but few children would attend school. In rural Districts August vacations may, perhaps, be preferable, on account of harvesting operations. Regarding the Text Books, we find, on enquiry, that more than one-half of those included in the list have never yet been introduced into this colony; and some of the others are in altogether too limited supply to permit of that part of the programme being carried into effect. It appears to us that the Inspector General would have acted wisely in examining the books now in use, and conferring with the Teachers as to the most suitable books, and also as to what books were procurable. It is questionable how far the Government would be justified in ordering a sudden and sweeping change in the text-books which are now used in the Common Schools, thereby inflicting considerable expense upon parents, and involving more or less confusion and embarrassment amongst pupils. A few general remarks and we have done: It is simply absurd to expect the Educational institutions of the country to flourish unless the services of good, efficient, zealous Teachers can be secured; and it is idle to expect to command the services of such Teachers unless there be discriminating selection and proper remuneration. It is not to be expected that good Teachers will come to a colony having such a bad reputation in regard to its Educational institutions, and it is still less to be expected that good Teachers will remain in the colony and submit to such treatment as has been meted out to them in the past. Schools supported from the general revenues of the country must be efficient in order to be justifiable. They ought to be institutions of learning second to none in the land; for if parents find it necessary to seek a good education for their children in other than State Schools, it at once becomes unfair to make these parents contribute their full quota towards the support of State Schools, while they have, at the same time, to pay directly for the education of their children elsewhere. The great object of all denominations meeting together on one common non-sectarian basis is that the people may, in a new country, be enabled to have efficient schools. It is for this object that we hope to see all religious teaching in regard to which the different denominations cannot agree eliminated from our Common Schools. But if, after excluding religious teaching in order that all may come together, the Common Schools of the country are of so low a standard as not to meet the just wants of all, we shall have made what some may regard in the light of a compromise wholly in vain. To be successful the Common Schools must be efficient. To be just they must meet the reasonable wants of all classes.

Big Bend.

[FROM AN OCCASIONAL CORRESPONDENT.]

CACHE CREEK, May 24, 1870.

I left here for French Creek April 17th and returned here May 21st, having made the round trip in 24 days. I found the traveling much better than before. For 22 miles beyond Seymour towards Columbia river the snow is completely gone. From that point to within two miles of the Columbia there is still some snow, and for about seven miles across the summit of the divide there is yet an average of about six feet. About the first week in June I think trains can pass.

The miners on French creek have all been at work some time and were doing very well considering some obstacles incident to the Spring freshet, which is now upon them. One company—Braley's — had found a piece of quartz and gold weighing 19 oz. It contained 11½ oz pure gold. The *Mountain* company have been taking out good pay and are now working up a breast which pays considerable over wages. This is the uppermost company on French creek. Above their ground the creek has never been tested.

On Camp creek the company that began sinking last fall and were obliged to stop for want of water to run their wheel, have resumed work again and may probably be on bedrock by the time I reach there on my next trip.

There is nothing known at French creek of new diggings on Canoe river; but the miners think it likely that news might have gone to Colville by way of the South Fork and Kootenay Lakes. In that case they would not hear of it. Two Canadian Frenchmen went up Canoe river last Fall and took a year's supply with them. Up to this time nothing has been heard from them at French creek. The steamer '49,' it is expected, will be up from Colville about June 1st. An influx of miners is expected by her.

The farmers on the Upper Thompson have finished putting in their grain. On an average they have double the amount of land under cultivation this than any previous season, and in consequence of a great amount of snow last winter, they expect an abundance of water for irrigating purposes. The hills in this vicinity look green and stock is growing fat.

False Hair Among the Ancients.

(From the Journal of Chemistry.)

The Greek, Egyptian, Carthagenian and Roman ladies, more than twenty-five centuries ago, made use of extravagant quantities of borrowed hair, and they wound it into large protuberances upon the back of their heads, and to keep it in place used 'hair pins' of precisely the form in use at the present time. The Roman women at the time of Augustus were especially pleased when they could out-do their rivals in piling upon their heads the highest tower of borrowed locks. They also arranged rows of curls formally around the sides of the head, and often the very fashoinable damsels would have pendant curls in addition. An extensive commerce was carried on in hair; and after the conquest of Gaul, blonde hair, such as was grown on the heads of German girls became fashionable at Rome, and many a poor child of the forest upon the banks of the Rhine parted with her locks to adorn the wives and daughters of the proud conquerors. The great Cæsar, indeed, in the most cruel manner, cut off the hair of the vanquished Gauls and sent it to the Roman market for sale, and the cropped head was regarded in the conquered provinces as a badge of slavery. To such a pitch of absurd extravagance did the Roman ladies at one time carry the business of adorning the hair, that upon the introduction of Christianity, in the first and second centuries, the apostles and fathers of the church launched severe invectives against the vanity and frivolity of the practice. It must be confessed, the ancient ladies outdid their modern sisters. The artistic professional hair dressers of old Rome were employed at such exorbitant prices to form the hair into fanciful devices, such as harps, diadems, wreaths, emblems of public temples and conquered cities, or to plait it into an incredible number of tresses, which were often lengthened by ribbons so as to reach to the feet, and loaded with pearls and thin clasps of gold

The Rev. Baboo Keshab Chandar Sen, leader of the radical Brahamins, is at present studying in England the religious system of the country which holds his own in subjection. The *Pall Mall Gazette* suggests the propriety of keeping out of sight of the Brahmin reformer, the paupers, gin shops, poor houses, prisons and hospitals of London, so as not to give him an unpleasant impression of the Christianity of Great Britain. The *Gazette* adds that after the Hindoo's departure these accessories of civilization may be resumed.

The King of Sweden has just given his sanction to several legislative acts of the Diet. The most important is that which refers to the extension of political rights to Christian Dissentors and Jews.

ATTEMPT AT SUICIDE.—Yesterday afternoon, about 2 o'clock, Henry Benny, formerly a member of the Sappers and Miners and latterly first cornet-player of the Volunteer Band, shot and dangerously wounded himself at the Miner's Saloon on Johnson street, under the following circumstances: The Queen's Birthday holidays he spent at New Westminster and whilst there drank to excess. A few days ago he returned to this city and continued drinking until yesterday afternoon when he was left alone in the barroom of the Miners' Saloon for a few moments during the temporary absence of Mr Johnson, the proprietor. Presently the report of a pistol was heard and upon the proprietor rushing in Benny was found lying on the floor of the hall weltering is his blood with a small Prussian revolver, one barrel of which was discharged, lying by his side. When picked up Benny acknowledged that he had tried to kill himself, and gave directions as to the disposal of his property. Subsequently Drs Powell and Bellamy were called and ascertained that the pistol had been held to the left breast and fired. The ball fortunately struck a rib, glancing around it, and was taken out near the spine. The injury is pronounced dangerous but not necessarily fatal. Since committing the rash act Benny has expressed a desire to live and protests that the shooting was accidental. The revolver belonged to Johnson, and was lying in the till when he left the saloon.

PERILOUS LEAP AND FORTUNATE ESCAPE.—A Marine secured a bed on the third floor of the St Nicholas Hotel on Wednesday evening and some time before daylight

> As he slept by himself he talked to himself,
> And himself he said unto he:
> From the window jump, and try if you'll bump,
> A hole in the ground or in that head of thee.

So the poor fellow, obedient to the mandate, precipitated himself from the window to the ground and actually established that his skull is made of harder material than Mother Earth, for he escaped with a slight scalpwound, whilst the ground was indented at least two inches! The shock awoke him, however, and he returned to bed and slept soundly—departing in the morning as if nothing had happened. A regiment or two of such fellows would make short work of a great army of Fenians.

MORE REASON THAN RHYME.—We thus reverse a common saying fitly to apply it to the following verse, said to have been written by a Minnesota lady who is opposed to the French suffrage movement. It is by a faithful discharge of maternal duty that woman will best serve her country. It is by the side of the cradle, not the ballot-box, that the mother's influence in the nation will be most potent for good—

> The "vote" that all are praising
> Is not the vote for me;
> Its claims are so amazing,
> I'd rather far be free.
> But there's a vote in yond r crib,
> A baby vote clear, shrill and glib,
> That vote is worth the raising,
> And that's the vote for me!
> Oh! that's the vote for me!

ACCESSION DAY REGATTA.—Evidence of the satisfaction with which the arrangements of the Regatta Committee are received by the public is found in the fact that scarcely a boat can now be hired for the 20th inst from Lachapelle or Levy. All or nearly all have been secured by intending participants. The proposition to change the course from the Arm to the harbor is too absurd to be entertained, as will be understood when we state that outriggers, a description of boat which will be extensively used on the 20th, sit scarcely an inch above the water, and require a smooth surface before they can be rowed without peril to the crew. The same objection exists with respect to racing-gigs. A meeting of the Committee will be held at 4 o'clock this afternoon.

ALEXANDRE'S GLOVES IN NEW AND BEAUTIFUL COLORS.—The French Perfect Corset from the most celebrated maker in Paris. These corsets, from the scientific principle on which they are cut, give universal satisfaction. Lace Shawls and Half-Shawls and the new Lace Mantle. Some entirely new makes of Dress Materials. Millinary, a really beautiful assortment Ribbons, Flowers, Feathers, Muslins, Trimmings, &c, &c. Riding Habits and Jackets, made by a celebrated London Tailor, and a great variety of other goods, rendering ours as complete a stock of Drapery, &c, as would be seen in Regent street or Broadway. — LONDON HOUSE.

THE MOTIVE.—Few persons now-a-days give the leaders of the American Fenian organization credit for higher motives then self-aggrandisement. Even the American Press is beginning to be plain upon this subject. The New York *Commercial Advertiser* expresses its astonishment that the Irish residents of the United States should longer be 'duped and misled by the Generals, Brigadiers, Colonels and Captains who run the Fenian organization more for the purpose of benefitting themselves than for the cause of Irish independence, and who rather enjoy living on servant girls' wages and the sweat of the daily laborers.'

ALHAMBRA HALL.—The entertainment to-morrow evening for the joint benefit of Messrs Graham and Beston is attracting much attention. Mr Beston is the clever scenic painter whose brush so faithfully delineated the stirring scenes in 'Under the Gaslight,' 'Streets of New York,' 'Willow Copse,' etc. Mr Graham is an actor and impromptu vocalist, who played with much success with the Bates Troupe. The bill will be announced to-morrow.

JOUVIN'S KID GLOVES.—These celebrated Gloves, perfect in their shape and magical in their fit, *the favorite Glove of London Paris and New York*, the Glove *par excellence* of the world, can be obtained at VICTORIA HOUSE, GOVERNMENT STREET, in all colors and sizes, both for ladies and gentlemen, the proprietors having just imported by Express a large assortment comprising all the newest tints.—W. DENNY, Manager.

REAL ESTATE SALE.—An important sale of city and other property will be held to-day by J P Davies & Co. The terms are easy and much of the property choice for residental purposes.

THE first cargo of Chinamen for Southern plantations has arrived at New Orleans.

THE WILSON G HUNT.—This steamer has been withdrawn from the Puget Sound trade by her owners, and will sail for San Francisco next week. The Wilson G Hunt is an old but staunch boat. In the heyday of 'youth' and new paint she came around Cape Horn 21 years ago, and has since seen much service on the rivers of the coast. At San Francisco she will be rebuilt and placed in a lucrative trade on San Francisco Bay.

NEW SCHOOL HOUSE. — A commodious building for the accommodation of the pupils in attendance upon Mrs Hayward's select school is in progress on Fort street. The building will contain school and classrooms, lavatories, &c, and is sufficiently commodious to accommodate a large number of scholars.

WHALING.—The whaling party from Honolulu with the boats and tackle will sail on Saturday for the West Coast. They will fish in the same waters as those selected by Capt Roys a year ago off Barclay Sound. The expedition is well provided with funds and apparatus and intend to take fish. The Dawson & Co party will start in a few days for Cortez Island in their schooner Kate.

ANNUAL GATHERING.—The Sons of Scotia, united under the name of the St Andrew's and Caledonian Society, will hold their Annual Gathering on the 4th of July, when they will indulge in the customary games and recreative amusements. The place selected for the Gathering is in the beautiful grounds adjoining Jay's Nursery. A very efficient committee has been appointed to arrange matters connected with the Fete and the programme will appear in a few days.

MARRIAGE.—St. Andrew's Church was crowded last evening with ladies and gentlemen who had assembled to witness the nuptials of Chas T Millard, Esq, and Miss Marguerita Elizabeth Watson. There were three bridesmaids and groomsmen. The bride was dressed in white satin and wore an elegant lace veil and the traditional orange wreath upon her head. The three bridesmaids wore white *tulle*. The ceremony was performed by Rev Mr McGregor.

AUCTION.—We call attention to the trade sale of clothing, dry goods, children's and misses' dresses, piece goods, hosiery, a large variety of hats, &c, to be sold at the salesrooms of Messrs J P Davies & Co, on a liberal credit.

THE Immigration Commissioners are about to meet and perfect arrangements for the reception of the servant girls who are hourly expected in the Alpha.

REJECTED.—The U S Senate has rejected the Sandwich Islands Reciprocity Treaty.

SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

Eastern States.

MALONE, June 1—There is great excitement here over the arrest of Major Fitzpatrick of New York and Col McNeil, two of the principal Fenian officers, who have heretofore eluded the U S officials. They are confined in the guard-house and will probably be arraigned before the U S Commissioner today.

A New York special says the Government officials at Malone wound up the war yesterday by arresting N Y newspaper reporters as Finigans and sending them to prison.

CHICAGO, May 31—The *Tribune's* Washington special says gentlemen of Utah have representatives here to get an act passed incorporating, with a small land grant, a company to open an irrigation ditch about 20 miles long, from a point in Bear River Canyon down by Connor to Salt Lake. The land grant is four sections per mile and the capital stock of the company a quarter of a million. The project meets with considerable favor from Congressmen.

The conference committee on the Income-tax agreed upon a report to day. It provides for the continuation of the tax as now during the present year, the law to remain in force till the tax is collected next Spring.

All Fenians on arrest shall be tried in U S Courts for violation of the neutrality laws

NEW YORK, June 1—Superintendent of Police Jourdan announces that hereafter he will refuse to make arrests on the authority of telegrams from a distant point unless full particulars as to name, offence and authority, for arrest are given. The Superintendent assigns as a reason for this decision that these telegrams have frequently been sent without consultation with the local authorities, and have caused arrests and detentions without sufficient cause.

The Alleged True Route.

Under this head the Sacramento *Union* speaks of a report which has been put forth by Gen. Dodge, late Chief Engineer of the Union Pacific Railroad. In this report he speaks of a line from Green River, at the crossing of the Union Pacific." This route is by way of Ham's Fork (Ganger Station, on the Union Pacific), thence along the Bear, Snake and Columbia rivers to Portland, striking the Columbia river at the mouth of the Umatilla. The entire distance from Omaha to Portland by this route, says Gen. Dodge, is 1700 miles; from Omaha to San Francisco, in round numbers, the distance is 1,900 miles, showing a difference of 200 miles in favor of the Oregon terminus. Gen. Dodge adds that this route "can never be approached in grades, alignment or cost, by any other route across the continent. The heavy grades, expensive work, excessive curvature, and deep snows of Wahsatch and Sierra Nevada would be entirely avoided." If Gen. Dodge will come a little farther North he will discover a still shorter and better route through British Territory all the way from ocean to ocean.

The prospectus has been issued for a new Commentary on the Bible, which is shortly to be published in London. The work will have some novel features, the main object being to counteract the influence of scientific teachers upon the Biblical cosmogony. Its authors proceed upon the idea that the Bible instead of being used by the people 'without note or comment,' should be placed in their hands with some explanatory commentary, in order to supply them with satisfactory answers to objections resting upon misrepresentations of its contents.' The men having it in charge are those who may be considered moderate men in the Church of England, such as Archbishop Thompson, Professor Rawlison, Professor Plumptre, Bishop Thirwall and Dean Mansel. Men of extreme views, either High or Low Church, like Colenso, Jewette, Pusey, and Dean Stanetly, are shut out from a participation in its composition, and thus some of the best bible scholars in Great Britain are conspicuous by their absence from the corps of editors engaged on the work.

THE Liverpool Committee of Inquiry on the subject of the condition of merchant seamen have issued a report in which they make a number of suggestions remedial and constructive Remedial—1 That seamen being being rated A B should obtain a certificate of competency. 2 That advance notes be rendered illegal. 3 That sailors' boarding houses should be licensed and under inspection; and no such boarding houses be in connection with beerhouses or publichouses. 4 That an alteration be made in our Consular system abroad, whereby Consuls should be prohibited from taking fees on the shipment or discharge of seamen. 5 That our Government be requested to enter into correspondence with foreign Governments with a view to putting down the crimping system abroad. Then, under the second head, the Constructive, they suggest—1 That in order to obtain efficient supplies of good seamen the Government provide and support training ships in sufficient number at all our large seaports, and that Government should encourage as much as possible the apprentice system. 2 That a compulsory benefit fund for seamen be established.

The sculptor Gibson saw Garibaldi when he entered Rome in the days of the revolution, and he wrote thus about him: 'He is quite young, and I have seldom seen a more beautiful head; his profile is like a statue. All eyes are turned on him, particularly those of the ladies. As he is beautiful, lawless and brave, he is sure to please them.'

HAIR VIGOR. — In common with many others we have felt a lively interest in the investigations which Dr. Ayer has been making to provide a remedy. His researches are said to have been much more thorough and exhaustive than ever made before. The result is now before us under the name of AYER'S HAIR VIGOR. We have given it a trial, and with full satisfaction it equals our most favorable anticipations. Our gray hairs have disappeared, or resumed their original color; and a visible crop of soft, silken hair has started on a part of the scalp which was entirely bald [Democrat, Abingdon, Va. *

THE FLYING SQUADRON.—A series of large size photographs of the Flying Squadron lying in Esquimalt Harbor and most beautifully taken, may be seen at F Dally's Photographic Gallery, Fort street, Victoria. *

HOLLOWAY'S PILLS.—When emerging from winter and entering on spring, it is a wise and wholesome precaution to purify and cool the system by some alterative competent to regulate disordered actions and to strengthen while it cleanses. This long sought medicine exists in Holloway's far-farmed purifying and tonic Pills, which cost only a trifle, and will ward off serious illnesses which too frequently reduce competence to poverty, enjoyment to misery. This medicine, so innocent in its nature, and so searching in its operation is suitable for all ages and for both sexes. It is especially adapted for soldiers and sailors, and is an indispensable requisite for colonists and persons proceeding to foreign countries where climates harass the constitution 48

When all employment becomes irksome and the mind incapable of continued application to any subject through weariness and exhaustion of the body, than some healthful tonic, acting gently but surely upon the liver and stomach, and gradually increasing the force of the circulation, and of the digestive system will be found to remove the difficulty. Such a medicine is DR WALKER'S VEGETABLE VINEGAR BITTERS, which in purifying the blood renovates the system giving it renewed vitality and force as of youth again. 19*

By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills." TO PREVENT INFRINGEMENTS, NOTICE IS HEREBY GIVEN that BETTS' NAME is ON EVERY CAPSULE he makes for the principal merchants in England and France, thus enabling vendor, purchaser and consumer, not only to identify the genuineness of the Capsule, but likewise the contents of the vessel to which it is applied. French Medicines,

PREPARED BY
GRIMAULT & CO.

Chemists to H. I. H. Prince Napoleon

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France, with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitals, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of MESSRS. GRIMAULT & Co's medicines.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

THIS wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structure. It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if the ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,
Bad Breasts,
Burns,
Bunions
Bite of Moschetos and Sand Flies,
Coco-bay,
Chiego-foot,
Chilblains,
Chapped Hands,
Corns, (Soft)
